Work Experience

Oregon State University - Undergraduate Learning Assistant
Mar. 2020 - May 2021
Des Moines (Remote)

Teaching assistant for *CS 290 - Web Development*, covering everything from the very basics of HTML, CSS, JavaScript up through server-side scripting in Node.js with Express and Handlebars in a 10-week format.

Responsibilities included grading assignments and hosting office hours in order to answer questions, clarify expectations, and guide students through concepts in a constructive, patient manner.

★ Proposed and completed project under class instructor to transfer old course material into school's new(er) learning platform.

Appen - Content Evaluator/Rater
Dec. 2018 - Jan. 2020
Des Moines/Philadelphia (Remote)

Evaluated content for a variety of clients on a freelance basis with the goal of improving machine learning/AI models by rating and correcting inputs and outputs. Jobs included categorizing content, rating the quality of AI responses, and confirming the accuracy of online listings.

Frontida BioPharm - AR&D Technician
Oct. 2017 - Sept. 2018
Philadelphia

Worked with analysts to assist in Analytical Research & Development activities under GMP standards, including staging and analyzing samples under HPLC, UV/Vis analysis, & sample dissolution.

Handled all inventory and requisitions for AR&D department.

★ Lowered departmental spending by 40% through negotiation of vendor contracts.

Rybrew - Shift Manager
Feb. 2013 - Aug. 2016
Philadelphia

Handled front-end operations at a newly opened pub/artisan sandwich shop. Responsibilities grew into training new employees, managing social media presence, handling inventory, & coordinating/catering events.

Tools/Languages | Python, C/C++, Node.js + JavaScript/Typescript, Express, Flutter/Dart
